

GIS Edition

ARGENTINA 1991 CENSUS

- 100% population coverage
- 6,495,066 data points
- ADM 4 for 40,093 census units
- 162 census variables

More than numbers. Census data provide unparalleled insight into the world's demographic, social, and economic development. The Argentina 1991 Census, part of the East View Global Census Archive® (GCA), addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Argentina 2001 and 2010 censuses (GIS editions) are also available through GCA

CENSUS OVERVIEW

Year: 1991	Polygons at ADM: 40,093
Population Coverage %: 100	Number of Questions: 27
Geography Coverage %: 100	Number of Answers: 162
Smallest Geography Name: Municipios	Data Points: 6,495,066
ADM Level: 4	Urban/FG: FG

Notes

- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Argentina 1991 Census has 100% population coverage, over 6 million data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Municipios) for 40,093 census units
- Vector and aggregated tabular data at the Municipios level

Shapefiles

- All vector and census data in ESRI Shapefile format

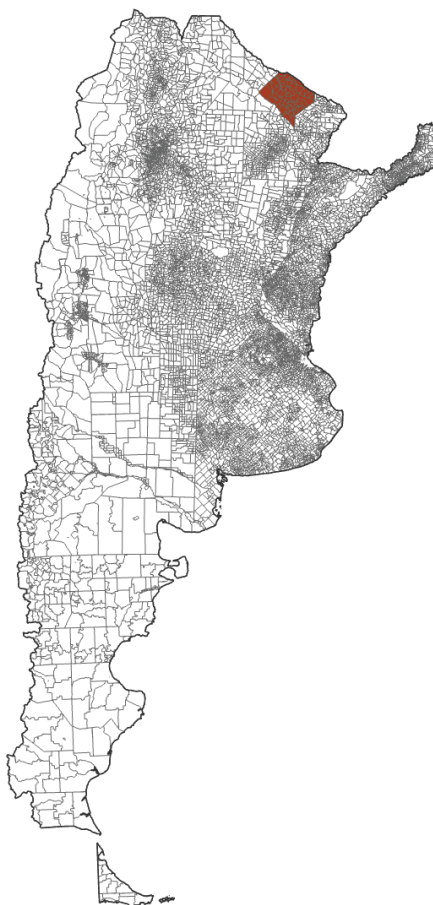

Census Guide

- Detailed descriptions for up to 162 census variables

Census Questionnaire

Metadata

- Full attribute level metadata in FGDC ISO format

ADM 4/0 boundaries for all of Argentina; area in red, over Provincia de Formosa, available as sample data
