

More than numbers. Census data provide unparalleled insight into the world's demographic, social, and economic development. The Argentina 2001 Census, part of the East View Global Census Archive® (GCA), addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see firsthand how the data was gathered.

Note: The Argentina 1991 and 2010 censuses (GIS editions) are also available through GCA

# **CENSUS OVERVIEW**

Year: 2001 Population Coverage %: 100 Geography Coverage %: 100 Smallest Geography Name: Municipios

ADM Level: 4

Polygons at ADM: 46,579 Number of Questions: 85 Number of Answers: 377 Data Points: 17.560.283

Urban/FG: FG

- · Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- · Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- · Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

## **DELIVERABLES**

The Argentina 2001 Census has 100% population coverage, over 17,500,000 data points, and consists of:

### Geodatabase

- Intuitive organization of census data
- · Administrative boundary vector data at ADM 4 (Municipios) for 46,579 census units
- · Vector and aggregated tabular data at the Manzanas level

# Shapefiles

· All vector and census data in ESRI Shapefile format

### Census Guide

• Detailed descriptions for up to 377 census variables

# **Original Census Documentation** and Database

- · Delivered in native format
- · Census questionnaires

# Metadata

• Full attribute level metadata in FGDC ISO format

# Argentina 2001 Census – GIS Edition

ADM 4/0 boundaries for all of Argentina; area in red is available as sample data

# **CENSUS QUESTIONS**

### Below is a representative sample of census questions included in the Argentina 2001 Census.

### 1. Demographic

Relationship / Sex / Marital status / Fertility

# 2. Migration

Place of birth / Citizenship / Duration of residence / Place of previous / Usual residence

#### 3. Social

Literacy / School attendance / Educational attainment / Field of education / Ethnicity and indigenous peoples
