GIS Edition

ARGENTINA 2022 CENSUS

- **99% population coverage**
- **75,827,100 data points**
- **ADM 4 for 66,515 census units**
- **1,140 census variables**

More than numbers. Census data provide unparalleled insight into the world's demographic, social, and economic development. The Argentina 2022 Census, part of the East View Global Census Archive® (GCA), addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Argentina 1991, 2001 and 2010 censuses (GIS editions) are also available through GCA

CENSUS OVERVIEW

Year: 2022

Population Coverage %: 99

Geography Coverage %: 100

Smallest Geography Name: Radios

ADM Level: 4

Polygons at ADM: 66,515

Number of Questions: 72

Number of Answers: 1,140

Data Points: 75,827,100

Urban/FG: FG

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Argentina 2022 Census has 99% population coverage, over 75 million data points, and consists of:

Geodatabase
- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Radios) for 66,515 census units
- Vector and aggregated tabular data at the Radios level

Shapefiles
- All vector and census data in ESRI Shapefile format

Census Guide
- Detailed descriptions for 1,140 census variables

Original Census Documentation and Database
- Delivered in native format
- Census questionnaires

Metadata
- Full attribute level metadata in FGDC ISO format

ADM 4/0 boundaries for all of Argentina; area in red, over Misiones Province, is available as sample data
