Country Profile (PDF)

## Topographic

The island of Mayotte is administered as a French overseas territory, and mapped by official French agencies using slightly different specifications to mapping than the other independent islands in the Comoros group. The **Institut Géographique National (IGN)** covers Mayotte in two 1:25,000 scale sheets conforming to *Série bleue* specifications, on the UTM projection, International ellipsoid, and with 10 m contours.

Soviet military topographic mapping of Mayotte exists at the following scales: 1:1,000,000 (1 sheet, complete coverage, published in 1991); 1:500,000 (2 sheets, complete coverage, published in 1987) and 1:200,000 (4 sheets, complete coverage, published in 1985). These products are available in print, digital raster and digital vector GIS formats from **East View Geospatial**.

---

## Nautical

The **Service Hydrographique et Océanographique de la Marine (SHOM)** publishes a nautical chart of the island.

[Back to top](#)

---

## Geological/Scientific

The **Bureau de Recherches Géologiques et Minières (BRGM)** completed a geological map of the island in 1996.

---

## Tourist/Reference

A single-sheet tourist map of Mayotte at 1:50,000 scale with 20 m contours has been published.
