Topographic

Niue is an isolated island between the Cook and Tonga Islands, and has been mapped by New Zealand agencies. Surveying and mapping of the island is the responsibility of the **Justice Lands and Survey Department (NJLSD)**. 1:50,000 scale topographic coverage of the island was revised to 1996 by **Terralink** and published by **Land Information New Zealand (LINZ)** for **NJLSD**, on the Transverse Mercator projection, International ellipsoid, with a larger scale map of the area around Alofi.

Soviet military topographic mapping of Niue is available at the following scale: 1:1,000,000 (1 sheet, complete coverage, published in 1965). This product is available in print, digital raster and digital vector GIS formats from **East View Geospatial**.

Nautical

The **Hydrographic Office** of the **Royal New Zealand Navy** has compiled nautical charts for **NJLSD**.

Geological/Scientific

Geological coverage of the island published by the **New Zealand Geological Survey**. Digital versions of these maps are used in the **Niue Land Information System**.

Thematic

Thematic maps of the island have been compiled by New Zealand organizations. A 1:63,360 scale soil map accompanied a monograph on soil and agriculture of the island is published by the **New Zealand Soils Bureau**.
