[Country Profile \(PDF\)](#)

Topographic

The French overseas department of Réunion is mapped by French agencies. The **Institut Géographique National (IGN)** compiles the basic scale for the island, a 1:25,000 scale series, recast in six sheets in 1992 and conforming to the French TOP25 specifications. This photogrammetric series uses the UTM projection, International ellipsoid, shows relief with 10 m contours and has replaced earlier 1:50,000 scale and 1:25,000 scale *Série bleue* coverage.

Soviet military topographic mapping is available at the following scales: 1:1,000,000 (1 sheet, complete coverage, published in 1994); 1:500,000 (1 sheet, complete coverage, published in 1989) and 1:200,000 (2 sheets, complete coverage, published in 1985). These products are available in print, digital raster and digital vector GIS formats from **East View Geospatial**.

[Back to top](#)

Nautical

Hydrographic charting of the island is published by **Service Hydrographique et Océanographique de la Marine (SHOM)**. It includes two 1:60,000 scale charts of the island (with 1:10,000 scale insets) and a 1:175,000 scale overview chart.

[Back to top](#)

Geological/Scientific

Earth science maps of Réunion published by **Bureau de Recherches Géologiques et Minières (BRGM)** include a four-sheet 1:50,000 scale geological map and 1:100,000 geological map with raised relief. Volcanic mapping has also been carried out.

[Back to top](#)

Soil

Resources mapping of the island from **Institut Français de Recherche Scientifique pour le Développement en Coopération (ORSTOM)** has included single-sheet soil coverage map, and some 1:40,000 scale mapping of the northwestern part of the island.

[Back to top](#)

Atlas

The national atlas was compiled by **IGN** in the mid-1970s, with nearly 200 maps of Réunion mostly at 1:150,000 scale. **CNRS Éditions** recently published a detailed linguistic and ethnographic atlas of the island in its regional linguistic atlas project. **Office National de Tourisme et de l'Artisanat (ONTA)**.

[Back to top](#)

Tourist/Reference

Indexed street guides to the major settlements are locally published by **SARL Azalées Éditions**, Ste-Marie. **IGN** also publishes a regularly revised 1:100,000 scale tourist map, and a raised plastic relief map of the island.
