Historical Country Mapping Information

Country Profile (PDF)

Topographic

The Polynesian state of Tokelau has been mapped by New Zealand agencies. A 1:25,000 scale image map of the main islands was compiled in (Series 272) by the **New Zealand Department of Lands and Surveys** (now **Land Information New Zealand (LINZ)**) and **Terralink**. Three four-color orthophotomaps were published in the early 1980s, on a Transverse Mercator projection, International ellipsoid, with road and place names overprinted on the image base.

Soviet military topographic mapping of Tokelau is available at the following scale: 1:1,000,000 (1 sheet, complete coverage, published in 1965). This product is available in print, digital raster and digital vector GIS formats from **East View Geospatial**.
