Country Profile (PDF)

Topographic

Modern mapping of the Kingdom of Tonga was established in the decade after the islands gained independence from Britain in 1970. 1:25,000 scale coverage in 23 sheets was compiled by the **Directorate of Overseas Surveys (DOS)**, (now **Ordnance Survey International (OSI)**). These line maps were on the Transverse Mercator projection, International ellipsoid, used the UTM grid and plotted relief with 10 m contour intervals. Other **DOS** coverage included 1:50,000 scale full-color photo maps of Tongatapu island. The **Tonga Ministry of Lands Survey and Natural Resources (TMLSNR)** acts as the national surveying authority and maintains some larger scale mapping, including a 1:2,500 scale map of the capital Nuku'alofa. Small scale coverage includes a 1:1,000,000 scale map of the group first published in 1969, a monochrome copy of **DOS** mapping republished at 1:900,000 by the **Hawaii Geographical Society (HGS)** and a map of the islands from **Pacific Maps**.

Soviet military topographic mapping of Tonga exists at the following scale: 1:1,000,000 (5 sheets, complete coverage, published 1965-1973). This product is available in print, digital raster and digital vector GIS formats from **East View Geospatial**.

Soil

1:25,000 scale soil maps of parts of the Vava'u, and Ha'apai groups and 'Eua island has been published with sheet explanations by the **New Zealand Soil Bureau** (now **Landcare Research**). More recent 1:100,000 scale soil mapping of Tongatapu has also been published.

Tourist/Reference

Thematic mapping of the Tonga group was compiled by New Zealand agencies in the 1980s.

Other recent mapping activity has been sponsored by the **South Pacific Applied Geoscience Commission (SOPAC)** which in 1995 issued a bathymetric chart of the islands' Exclusive Economic Zone.
