Topographic

The French overseas territory Wallis and Futuna is mapped by the French **Institut Géographique National (IGN)**. Two 1:25,000 scale sheets conforming to *Série bleue* specifications cover the islands. These four-color maps were published in 1986, on the UTM projection, International ellipsoid, show relief with 20 m contours and are based upon 1982 aerial photographic coverage.

Soviet military topographic mapping of Wallis and Futuna is available at the following scale: 1:1,000,000 (1 sheet, complete coverage, published in 1965). This product is available in print, digital raster and digital vector GIS formats from **East View Geospatial**.

Nautical

Charts of the islands are published by **Service Hydrographique et Océanographique de la Marine (SHOM)**.
