

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Ethiopia 2007 Census as part of the East View Global Census Archive® (GCA). The Ethiopia 2007 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

CENSUS OVERVIEW

Year: 2007

Population Coverage %: 100

Geography Coverage %: 100*

Smallest Geography Name: Weredas

ADM Level: 3

Notes

- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

* The 756-count polygon layer includes 11 water features and 7 rural weredas where no data was available.

Polygons at ADM: 756

Number of Questions: 116

Number of Answers: 1,351

Data Points: 997,038

Urban/FG: FG

DELIVERABLES

The Ethiopia 2007 Census has 100% population coverage, nearly 1 million data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 3 (Weredas) for 756 census units
- Vector and aggregated tabular data at the Weredas level

Shapefiles

- All vector and census data in ESRI Shapefile format

Census Guide

- Detailed descriptions for 1,351 census variables

Original Census Documentation

- Delivered in native format
- Census questionnaires

Metadata

- Full attribute level metadata in FGDC ISO format

ADM 3/0 boundaries for all of Ethiopia; area in red, over Kaffa zone, is available as sample data
