

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Paraguay 1992 Census as part of the East View Global Census Archive® (GCA). The Paraguay 1992 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Paraguay 2002 and 2022 censuses (GIS editions) are also available through GCA

CENSUS OVERVIEW

Year: 1992	Polygons at ADM: 51,085
Population Coverage %: 33	Number of Questions: 46
Geography Coverage %: 0.3	Number of Answers: 688
Smallest Geography Name: Manzanas	Data Points: 35,146,480
ADM Level: 6	Urban/FG: Urban

Notes

- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Paraguay 1992 Census has 33% population coverage, over 35 million data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 6 (Manzanas) for 51,085 census units
- Vector and aggregated tabular data at the Manzanas level

Shapefiles

- All vector and census data in ESRI Shapefile format

Census Guide

- Detailed descriptions for 688 census variables

Original Census Documentation and Database

- Delivered in native format
- Census questionnaires

Metadata

- Full attribute level metadata in FGDC ISO format

ADM 6/0 boundaries for all of Paraguay; inset detail over Asunción with area over Luque available as sample data
