Kenniya guo jia di li yao gan tu ji [Kenya Geographic and Remote Sensing Atlas 肯尼亚国家地理遥感图集]

Zhang, Zongke. Wuhan, China: Hubei ke xue ji shu chu ban she. Hardcover. 183 pages. ISBN 9787535289636. In Chinese (simplified) and English. 2016. 39 cm. Price: \$395.00

This fully bilingual atlas by the Sino-African Joint Research Center is a product of in-depth cooperation between scientists from China and Kenya. The cooperation fully exploited the advantages of remote sensing satellites, using a large number of remote sensing images combined with field surveys and related geographic information to show Kenya's topography, geomorphology, hydrology, climate, and other geographical features and unique surface landscapes. The atlas is organized into three main parts: national geography (including space views, national demography, and remote sensing analysis); major features (including cities, rivers, lakes, coastal zone, and main crops); and fantastic landscapes.
