## Trade, Popular and Reference Maps and Atlases

### Featured Publisher

#### Featured Publisher: Geoland

Based in Tbilisi, Geoland is one of Georgia's leading cartographic publishers. Geoland produces and sells its own trekking maps (featured below), travel maps (six regional

maps covering Georgia at 1:200,000 scale), country map, a Tbilisi city map, and special interest maps.

For a full list of Geoland titles available from East View, please visit [shop.eastview.com](http://shop.eastview.com).

#### Georgia Trekking Maps

Maps in this series are 1:50,000 scale, double-sided, contoured and GPS compatible. Contours are at 20 m intervals, with additional relief shading and numerous spot heights, coloring and graphics to indicate different types of terrain (e.g., glaciers, swamps, etc.) and vegetation (woodland, vineyards, etc.). The road network distinguishes between local paved or unpaved roads, dirt tracks, forest roads and footpaths. Railways, cable car lines and funiculars are also included. A range of small unobtrusive icons indicate local services, tourist facilities and places of interest, including accommodation, different places of worship and historical sights, sport and recreational grounds and areas, medical facilities, etc. Each map has a 1km UTM grid, plus latitude and longitude margin ticks at intervals of 1'. Map legend is in English and all place names are in the Latin alphabet only.

Listings below are for the paper edition of the maps, which are also available in a waterproof and tear-resistant version.
