Scientific and Specialty Atlases and Books

Socio-economic atlas of the Lao PDR : patterns and trends from 2005-2015

20-06-005 | \$260.00 | [PURCHASE](#)

Socio-economic atlas of the Lao PDR : patterns and trends from 2005-2015

Centre for Development and Environment. Hardcover. 120 pages. ISBN 9783906813615. In English. 2018.

This latest atlas, developed by the Centre for Development and Environment (CDE) of the University of Bern, together with the Lao Statistics Bureau (LSB), combines statistical data from the last two Population and Housing Censuses of 2005 and 2015. Enhanced with detailed geographic information, the Atlas presents and makes available a wealth of socioeconomic information on a large set of highly detailed thematic maps, revealing both the status of 2015, as well as the observed dynamics over space and time within the decade-long inter-census period, at village-level and for the whole of the Lao PDR.

Other Atlases

Maps Tracing Shanghai: A Study on the Cultural Value of Modern Shanghai Maps Collected by Shanghai Surveying and Mapping Institute.

Trade, Popular and Reference Maps and Atlases

Featured Publisher: ODT Maps

ODT Maps focuses on helping people see the world in different ways through maps. In 1989, ODT pioneered the use of the Peters Projection map materials in corporate cultural diversity training sessions. The Peters Projection, published in the U.S. and Canada exclusively by ODT, focuses on the actual size of landmasses and is less distorted than the historically popular Mercator projection. ODT's other specialties include population maps, equal area maps, "Whats Up? South!" maps and the highly regarded "Many Ways to See the World" book, which are all designed to challenge perceptions and help people see the world from a different perspective. ODT Maps continues to be utilized by faith-based groups for mission education, media companies for features in television (such as West Wing), and the nation's most active groups focused on media literacy.

ODT has established themselves as a leading source for unique maps, projections, and educational resources relating to alternative geographic perspectives. They continue to impact change by providing resources, and advocating for different viewpoints to be seen and heard. They've become so well regarded that individuals like Jane Elliot, the anti-racism educator and former US Ambassador Edward Peck have become brand advocates for ODT.

Large Paper Peters Projection World Map

Wall Map. 2014. In English. 39 x 50.

One of the most controversial images of the world, the Peters Map was first introduced by Dr. Arno Peters in 1974 and generated a firestorm of debate. Peters was one of the first to assert that maps are unavoidably political. His map claimed to show "Fairness to All Peoples" providing an area accurate portrayal of the world. Today, this equal area map continues to have passionate fans as well as staunch critics.

What's Up? South! Rolled Paper World Map

Wall Map. In English. 36 x 56.

This south-at-the-top map is a great educational tool. It challenges basic notions of "up" and "down." True "up" from our standpoint on the earth, is away from the center, and the earth in space has no inherent up or down. To emphasize this point, this map includes an inset, which shows global views from various angles. In addition, other inset maps show examples of a variety of projections with notes on their merits and limitations.

20-06-015 | \$20.00 | [PURCHASE](#)

What's Up? South! Paper Folded World Map

Wall Map. In English. 18 x 36.

This south-at-the-top map is a great educational tool. It challenges basic notions of "up" and "down." True "up" from our standpoint on the earth, is away from the center, and the earth in space has no inherent up or down. To emphasize this point, this map includes an inset, which shows global views from various angles. In addition, other inset maps show examples of a variety of projections with notes on their merits and limitations.

Hobo Dyermead Museum South-Up World Map, Paper or Laminated

Wall Map. In English. 24 x 36.

ODT collaborated with the Amherst College museum staff to develop a custom-designed world map for "A Global View," a new installation of cultural artifacts organized as a part of the Mead's whole-museum reinstallation project. After reviewing numerous options, museum curators selected "The World Turned Upside Down," a map which places the southern hemisphere at the top and shows the relative size of continents. The map is a Hobo-Dyer Equal Area Projection, South-Up, and was commissioned and published by ODT and designed and Oxford Cartographers (UK).

Services: Approval Plans, Digitization, Customization

East View offers approval plan services for maps and atlases tailored for a wide variety of libraries with unique needs and specifications. With many years of experience serving academic, public and government libraries with foreign language materials, we recognize the importance of establishing precise, yet flexible parameters to ensure the best quality material and service. Contact us for more information.

In addition to approval plans, East View Geospatial provides high-quality and cost-effective mapping and GIS services and solutions, including custom map and data production, and digitization, mosaicking and hosting services via our [MapVault](#) program. Contact us today to discuss customized solutions for your mapping needs.
