## **East View Geospatial Offering PlanetSAT 2020 Global Imagery Basemap**

East View Geospatial (EVG) is excited to announce the availability of PlanetSAT Global 2020, an imagery basemap providing a seamless view of the earth.

Produced by PlanetObserver, PlanetSAT Global 2020 offers access to unmatched 10-meter resolution imagery around the globe allowing obtainment of detailed geographic information at every scale. Users will benefit from up-to-date and consistent imagery reflecting any changes to the landscape.

PlanetSAT Global 2020 delivers unrivaled image quality with a seamless view of the earth and exquisite color balance. The updated basemap provides an enhanced, unmatched visual user experience allowing for easy exploration of the basemap and imagery options. All imagery on PlanetSAT Global 2020 has been processed and optimized with no requirement of further image retouching. The entire 2020 global mosaic is color-corrected, cloudless and ready for immediate use following delivery.

PlanetSAT Global 2020 is available in global, continental, country or custom AOI coverage, and can be delivered in GeoTIFF, JPEG or ECW format. East View Geospatial is eager to speak with our current and future customers about the value of PlanetSAT. We are committed to assisting you in your next project with the highest quality data and most authoritative solutions in the geospatial industry. Could your organization benefit from access to PlanetSAT Global 2020? Let's Talk! For more information please contact us at [geospatial@eastview.com](mailto:geospatial@eastview.com) or contact your East View Geospatial representative.
