## Global Census Archive from East View

East View presents the Global Census Archive® (GCA), an innovative program to collect officially published census-related materials from around the world.

This global collection contains GIS census data (GCA-GIS) as well as all available published volumes, questionnaires and other census ephemera (GCA-PUBS). Each census comes with an East View-produced census catalog, which serves as a finding aid and provides historical context.

East View provides a centralized publications platform and uniform GIS format for these materials, making a wide range of census assets easily accessible for discovery and analysis.

The listings below are a sample of available census publication collections and GIS census data. For the full list of available GCA-PUBS and GCA-GIS data, visit [eastview.com/gca](http://eastview.com/gca).

**Note:** GCA Publications and GIS census data programs are continually growing, with new countries and census years constantly being sourced. If there is a country you are interested in that does not appear on this list, please contact us to discuss availability and status.

### Big News for GCA-PUBS

East View is pleased to announce that it has licensed the complete microfilm holdings of the **International Population Census Collection (IPC)** from Gale-Cengage. The IPC Collection has several million pages of volume-based census publications from nearly 100 countries spanning the early twentieth century to present day.

The IPC data will provide a massive influx of digital content into East View's GCA-PUBS program, offering even broader geographic coverage and more census rounds for researchers. Stay tuned for more information on forthcoming coverage and availability.

## Services: Approval Plans, Digitization, Customization

East View offers approval plan services for maps and atlases tailored for a wide variety of libraries with unique needs and specifications.
