GIS Edition
EGYPT / مِصر, MIṢR
2017 CENSUS

- 100% population coverage
- 580,060 data points
- ADM 4 for 5,890 census units
- 97 census variables

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Egypt 2017 Census as part of the East View Global Census Archive® (GCA). The Egypt 2017 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Arabic, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

DELIVERABLES

The Egypt 2017 Census has 100% population coverage, over 580,000 data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Shyakha Level) for 5,890 census units
- Vector and aggregated tabular data at the Shyakha level

Shapefiles

- All vector and census data in ESRI Shapefile format

Census Guide

- Detailed descriptions for 97 census variables

Original Census Documentation and Database

- Delivered in native format
- Census questionnaires

Metadata

- Full attribute level metadata in FGDC ISO format

CENSUS OVERVIEW

Year: 2017

Population Coverage %: 100

Geography Coverage %: 99.3

Smallest Geography Name: Shyakha

ADM Level: 4

Polygons at ADM: 5,890

Number of Questions: 21

Number of Answers: 97

Data Points: 580,060

Urban/FG: FG

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places
